

Arash Salami

React Developer

I'm a 34 year old chemical engineering PhD student dropout who finally found the courage to leave his old life and follow his dreams. I was always fascinated by tech and IT but went on the wrong path for a long time, but I believe it is never too late to change and that's what I did! I'm a self-taught programmer who is a detail-oriented, organized and meticulous employee which works at fast pace to meet deadlines and an enthusiastic team player ready to contribute to company success.
